

Welcome to Siigari's Cooking to 525 service!

The goal of this service is to level your cooking to 525 from wherever you are right now! I personally hope to get you there in a speedy way that lets you have fun playing the game how you want to while I go get the materials to level your cooking. At a minimum, this process will take at least seven hours.

All payments must be made up front before work begins. Once payment has been received, expect to have mats in your mailbox within 24 hours. Recipes will be included in the mail with this service. NOTE: In order to level from 450 to 525, you must complete at most nine cooking dailies in Stormwind. You need nine Chef's Awards to level to 525 with this service, which can be obtained in nine days or less (as some dailies give two awards.)

Rates are based on your current cooking level. Prices subject to change based on my personal availability and/or market price.

PRICE LIST:

Match your current cooking level to the flat rate.
